Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Educational Symposia designates this enduring material for a maximum of 14.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SA-CME: Credits awarded for this enduring activity are designated "SA-CME" by the American Board of Radiology (ABR) and qualify toward fulfilling requirements for Maintenance of Certification (MOC) Part II: Lifelong Learning and Self-assessment. All activity participants are required to take a written or online test in order to be awarded credit. (Exam materials, if ordered, will be sent with your order.) All course participants will also have the opportunity to critically evaluate the program as it relates to practice relevance and educational objectives.

AMA PRA Category 1 Credit(s)™ for this activity may be claimed until September 14, 2021.

This CME activity was planned and produced by Educational Symposia, a leader in continuing medical education since 1975. This activity was planned and produced in accordance with the ACCME Essential Areas and Elements.

**Educational Objectives**

At the completion of this CME teaching activity, you should be able to:

- Assess normal fetal anatomy in the first trimester.
- Discuss current indications and national guidelines for early gestation ultrasound.
- Review major fetal malformations that can be diagnosed in early gestation.
- Discuss the use of ultrasound in screening for fetal aneuploidy in early gestation.
- Demonstrate increased knowledge into the applications of fetal and OB/GYN scanning procedures.

No special educational preparation is required for this CME activity.

**Target Audience**

This program is designed for obstetricians and gynecologists, maternal-fetal medicine physicians, radiologists, family medicine physicians, genetic counselors, and sonographers, who order, perform, and interpret ultrasound examinations in obstetrics and gynecology. The goal of this educational activity is to bring the level of practice for the health practitioners to a higher degree of proficiency in obstetric sonography.

**About This CME Teaching Activity**

This CME activity is structured as a practical, clinically oriented review of recent advances in first trimester ultrasound. The program begins with a comprehensive review of normal fetal anatomy along with abnormalities of major organ systems in early gestation. The program concludes with guidelines and information for imaging in the obstetric patient are discussed. Tips, images, and pitfalls provide balance to the program.

Educational Objectives
At the completion of this CME teaching activity, you should be able to:
• Assess normal fetal anatomy in the first trimester.
• Discuss current indications and national guidelines for early gestation ultrasound.
• Optimize scanning parameters and techniques of the OB/GYN ultrasound examination.
• Review major fetal malformations that can be diagnosed in early gestation.
• Discuss the use of ultrasound in screening for fetal aneuploidy in early gestation.
• Demonstrate an increased knowledge into the applications of fetal and OB/GYN scanning procedures.

No special educational preparation is required for this CME activity.

About This CME Teaching Activity
This CME activity is structured as a practical, clinically oriented review of recent advances in first trimester ultrasound. The program begins with a comprehensive review of normal anatomy and first trimester anatomy. The program then moves on to ultrasounds along with descriptions of major organ systems in early gestation. Scanning pitfalls and information for imaging in the OB/GYN patient are discussed. Flow, images, and pitfalls provide balance to the program.

Target Audience
This program is designed for obstetricians and gynecologists, maternal-fetal medicine physicians, radiologists, family medicine physicians, genetic counselors and sonographers, who order, perform and interpret ultrasound examinations in obstetrics and gynecology. The goal of this educational activity is to bring the level of practice for the health practitioners to a higher degree of proficiency in obstetric sonography.
